Upgraded Test Bay for your One-stop Solution

To celebrate the start of a brand new year 2011, Aflex has implemented an upgrading project to increase the capability of our test bay. Now, we are able to provide offer our pump testing services to more customers who require their pumps to be certified by the International Association Classification Societies (IACS) surveyors such as ABS, DNV, NK, BV and more.

Setup in August 2008, our test bay has expanded the flow rate testing volume to a volume of up to 1100m³/h and a power of 90kW for both the centrifugal pumps and positive displacement pumps. Email us at sales@aflex.com.sg now to find out more!
